CLERK
U.S. BANKRUPTCY COURT
DISTRICT OF DELAWARE

Your Honor,

My lawyers suggested (if I was up to it) that I write to you about my experience and why I decided to become part of this class action.

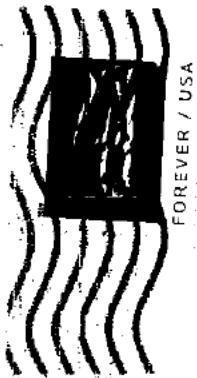

I was in the Boy Scouts when I was 11 years old. I went to summer camp which was in the mountains of [REDACTED]. I had always loved to swim so I decided to try to accomplish the mile swim and get the special badge the Scouts offered. Only four of us attempted the feat and all four of us swam it. When I finished, I had a towel wrapped around me shivering. The scout master was rubbing me up and down to warm me up. Then one hand stayed on the towel and I felt his other hand on my penis. This was in the mid sixties and my parents were old fashioned and had not talked to me about sex and what was right or wrong. It just didn't feel right to me so I pushed his hand away and he put his hand back. I pushed his hand away again, this time saying "no". He then stopped.

As I got older and learned about sex and what was right and wrong, this incident has always haunted me.

Parents should be able to trust the people they entrust their children to.

Thank you for your time and understanding.

[REDACTED]
