To whom it may Concern;

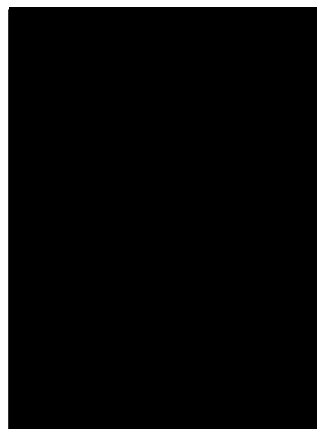

I am writing in concern of Boy Scout of America. I was a young Cub Scout then Boy Scouts. I was a victim of both Scoutings. Each time I was a scout, I was subject to being molested on 5 different occasions until I got out of the scouts. Each occurrence happened at camping or having to stay after meetings to clean up.

The damage that had incurred was after and during my Scouting made me suicidal until I had my 2nd child in my mid 30s.

It made me think I was gay even though I never had attraction to men, which I couldn't understand why I was like this. I also became a loner due to my confusion. I always thought that it was my fault for letting the men touch me in the way they did.

I personally think they should end the programs because I think the men were in it only for one purpose.
