After reading the 4-26-21 A1s report I strongly support All the advice given from my attorney's Too move foward To actually hold those predators of the BSA accountable for each and every child in which had been abruised under their care.

I myself am a Victim.  
also an ~~survivor~~ Survivor living day by day with an hiden Secret that im regretting for the rest of my life.

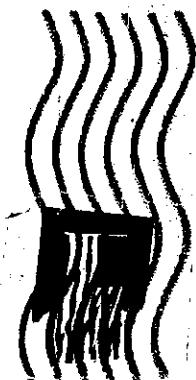

So I Strongly believe That the BSA Should pay to their follest for there neglect which have harmed so many yes even AS Adults we still Suffer Greatly.
